

IVORY LUXETOP™ | FIRM

THE PATENTED AIRELOOM LIFT™

We've pioneered a natural chamber between the springs and the mattress-top that allows every element to breathe. When the chamber meets the layers of plush materials, the bed completely synchronizes with your body. It can only be described as a lift.

Hand tufted design

KARPEN LUXURY COLLECTION

- Adjustable base friendly

WOOL/CASHMERE

This luxurious natural fibers blend cradles your body, helps regulate your body temperature, reduces pressure points and provides a sumptuous and exquisitely smooth feel.

GRAPHITE VISCO

Plush memory foam infused with graphite natural mineral provides outstanding pressure relief, maintains temperature regulation and wicks away moisture.

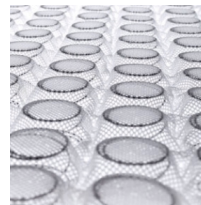

HORSEHAIR

Strong, flexible and exotically sourced, lush horsehair acts as tiny springs. With natural antibacterial, anti-fungal and anti-mite properties, it guarantees an optimal temperature control.

CELSIONPLUS™ TERRAPUR™ LATEX

Expertly tailored for optimal support, our exclusive TerraPur™ Latex is hypoallergenic, breathable and delivers a unique buoyant quality which relaxes muscles and relieves tension.

MICRO COILS

In combination with the other comfort layers, a double layer of tiny 19 gauge micro coils adds support and stability to the mattress as well as improves air flow for an optimized comfort.
